Washington, June 16.—The Japanese

Legation has received the following

bulletin from Tokyo dated today:

"General Oka reports that on June

15th our main body advanced north-

ward in two columns along the rail-

way, expelling the enemy from the

east of Wafangdian. At 5 p.m. the

enemy made a stand on the railway

line between Langwangdian and Tan-

gungdian, and after two hours' ex-

hausting combat, we occupied the night-

fall position between Tangungdian and Yu-

being supported by the right wing

from Tsien. At 9 a.m. the

FRETTING CHILDREN.

When a child frets and cries almost

continuously the root of the trouble

is often found in the liver and

stomach or bowels. Fermentation

and decomposition of the food mass

in the stomach and bowels is the

cause of the fretting and crying.

Baby's Own Tablets are

just what is needed to

keep her little ones healthy. These

Tablets gently regulate the bowels,

cause constipation, prevent discom-

fort and cool the stomach, and

promote sound natural sleep.

Tablets can be given with safety to

a new born babe. Mrs. J. M. Eick

Boys, Ont., says: "I think

Baby's Own Tablets the best medi-

cine in the world for the ailments of

little ones. No mother should be

without them." Sold by all drug-

gists or sent by mail at 25 cents a

SAVE BABY'S LIFE.

You cannot watch your little one too carefully during the hot weather. At this time sickness comes so fast and so suddenly that the little life is apt to glide away almost before you are aware of it. Frequent baths, chafers liniment, and stomachics are all necessary. At the first sign of any of these troubles Baby's Own Tablets should be given—these still an occasional dose will prevent these troubles coming, and the Tablets should therefore be kept in every home. Ontario Electric Railway Company.

ERE long there will be submitted to the ratepayers of Napanee for their acceptance or rejection, a bylaw asking the owners to appropriate the sum of Twenty Thousand Dollars and purchase bonds of the Ontario Electric Railway Co., a popular rate of two cents per mile to be paid for only after the road is completed between the decided advantage over the older cities of Toronto and Kingston. The proposition is a fair one given without saying and that there will be no tedious delays or stoppages, but owing to the frequency with which the cars are run, one can almost at his own convenience, step out of his own way of prospering has found its dose and be carried to its destination in less time than under started. nothing of the facilities offered for amusement and recreation, Napanee should be transformed into a bustling town, and it will be at the bylaw, carried.

Great as has been the advance in the problem of transportation of late years, it has not been without the greatest of advantages, and convenience to the general public. Steam locomotion with all its facilities and after all its benefits to mankind has eventually to go the way of all things. Slowly but surely it is being superseded by the latest handwork of man's ingenuity and invention in this direction. The science and application of electricity has today placed in the hands of man a power of usefulness and endurance of usefulness. Scarcely a day goes by without some new sphere of activity being opened to it, and with what helpfulness to the human race is apparent to all.

The Ontario Electric Railway was formed two years ago with Hon. Sir Richard Cartwright G.C.M.G., Robt. J. Carson, John Carson and Cornelius Berringer, Mayor of Kingston, and Albert Levenell, G. E. Smith, and H. N. Smith, of Boston, Mass., as Provisional Directors. The object of the company is to build electric roads throughout Canada, and already considerable money has been expended and plans completed for the construction of the road between Kingston and Toronto. This means of locomotion is by no means new to our friends across the border, where the electric system has been instituted to great advantage. In no state of the union are the benefits derived thereby over the older forms of transportation more apparent than in the state of Ohio. This is the great trolley state and has now over 15,000 miles of trolley lines showing earnings during the year of over \$20,000,000 a sum equal to one third of the Revenue of the Dominion of Canada. The same progress is everywhere to be seen to the south of us and statistics amply prove that the venture (if it may now be so called after having long since passed through the embryo stage) has been handsomely remunerative to its shareholders.

The Electric Railway possesses all the advantages of the present steam system and their equipment is being constantly improved. All the conveniences of buffet attachments, express cars and sleeping cars are to be found in the new system, while speed is increased and the time of travel from one point to another considerably lessened. This is not done at the

expense of public safety, however, but simply as a result of the new electricity places at hand. The greatest care is always exercised in the construction and location of tracks while grades and curves are eliminated to an unlooked for degree.

It is the intention of the Ontario Electric Railway Co. to establish Ontario Electric Railway Co., a popular rate of two cents per mile over their road and thus a road is completed between the decided advantage over the older cities of Toronto and Kingston. The proposition is a fair one given without saying and that there will be no tedious delays or stoppages, but owing to the frequency with which the cars are run, one can almost at his own convenience, step out of his own way of prospering has found its dose and be carried to its destination in less time than under started. HEARD WITH PLEASURE

In St. Andrew's church, on Sunday morning two very fine hymns were sung by Mr. (Capt.) Twining, formerly well known in Kingston musical circles. Mrs. Twining's beautiful contralto voice has lost some of its strength and sweetness and her songs were less enjoyed than in the past. Her first solo, "The Blessing of the Lord," was sung after the first scripture lesson and during the offertory she rendered "A Song of Trust," both being sung in excellent voice. — Kingston Whig.

Try One of Our Suits For That Boy Who Is So Hard on His Clothes.

There's no satisfaction in putting a poor suit on a boy—a suit you can't wear to the strain.

A boy's suit ought to be equal to a woman's. The foundation of a sturdy suit is the cloth, for if that isn't right, the tailoring is wasted.

We have all size of Boys' Suits in double and single breasted, two and three piece suits. This is the season of the year we are clearing out odd suits before the Fall Clothing arrival.

During the month of August we will allow 20 per cent discount on all Boys' Clothing.

\$2.50 Suits for \$2.00
\$3.50 Suits for \$2.80
\$5.00 Suits for \$4.00
\$7.00 Suits for \$5.60

Three dozen Men's Suits at 25c each. Some were \$1.00 and \$1.75, others were \$2.00 and \$2.50; mostly light shades, suitable for present wear. The suits are not damaged in any way. They are a collection of odd lines—no two alike—and we wish to clear them out to make room for our Fall Hats that will arrive soon.
